OBJECTIVE

Enthusiastic software developer skilled in the Full stack, passionate about building user-friendly and scalable web applications.. Looking for an opportunity to learn and grow while creating impactful solutions in full-stack development. Strong problem solving abilities and programming skills.

TECHNICAL SKILLS

- **Languages:** Javascript, Core Java, Typescript, HTML/CSS
- **Frameworks and Libraries**: Next.js, React.js, Node.js, Express.js, Tailwind css
- **Database and Tools**: Mongodb, VS code, Postman, Neondb
- **Soft Skills**: Problem-solving, Team Collaboration

EDUCATION

Bachelor of Technology in Computer Science and Engineering(AIDS), CGPA: 7.33 **2025**
Technocrats Institute Of Technology, Bhopal, MP

High School (12th Grade), Percentage: 90% 2021
Seva Sadan Higher Secondary School, Burhanpur

High School (10th Grade), Percentage: 89.6% 2019
Seva Sadan Higher Secondary School, Burhanpur

PROJECT

DevSwipe **Link**

- Developed a matchmaking web application using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented features for user registration, profile creation, match suggestions, and interactive functionalities like sending, accepting, or rejecting requests to enhance user engagement and interaction.
- Created a WEBSOCKET server to create a chat between two peer
- Implemented Redux Toolkit for efficient state management and handling complex application data flow.
- Developed a secure authentication system using JWT tokens for user session management and bcrypt.js for password hashing.

ByteBlog **Link**

- Developed a full-stack blogging application using Next.js 15, React, TypeScript, and Prisma for creating and managing blog posts
- Implemented secure user authentication and authorization using Clerk
- Designed type-safe database schema and API endpoints using Prisma ORM with Neondb for efficient data operations
- Integrated Zod validation library for robust form validation

ACHIEVEMENTS

Certifications

- Programming in Java, IIT Kharagpur [NPTEL]
- Mern stack development [coding thinker academy]

Problem Solving: 300+ problem solved on leetcode
